

**SOFTWARE VENDORS:
REVISION OF NJ'S MEDICAID REIMBURSEMENT PROCESS**

New Jersey will implement a case mix system effective 07/01/2010.

New Jersey plans to use the following:

- 5.12 RUG-III 34-grouper
- Index Maximizing RUG calculation
- B01 CMI Set *

At the current time, New Jersey has no plans to require the following:

- Section S.
- Completion of Z0250.
- Completion of any additional items other than the required items for the NP and NQ forms.
- The full MDS form for quarterly assessments.

The use of the RUG-III version will continue after implementation of MDS 3.0, but NJ may evaluate the use of RUG-IV at a later date.

*The CMI set that will be used in NJ's case mix rate calculation may be found at https://www.cms.gov/MDS20SWSpecs/13_CMIVersion5.asp#TopOfPage identified as CMI Set B01.
